

Vodavi XTS

eXpandable Telephone System

The NEW Vodavi XTS

Scalable and Cost-Effective with all the features of our infinite DVX^{plus} digital systems

“XTS” stands for eX-pandable Telephone System. Our Newest system provides investment protection and can scale to 376 universal ports to accommodate growing businesses.

Maximum Capacities

- One Cabinet: 48 CO lines and 96 Stations up to 136 ports
- Two Cabinets: 144 lines and 192 Stations up to 280 ports
- Three Cabinets: 144 lines and 252 Stations up to 376 ports

Installation and maintenance of the XTS is enhanced with new hardware features such as:

- Several cross-compatible cards with the DVX^{plus} II and III
- Caller ID is on-board the LCOB and SLIB cards, eliminating the requirement for any external equipment **ComingSoon**
- Champ connectors on loop start and station cards
- Flash ROM for remote software upgrades

IT Directors will appreciate the look and design of the XTS, as it is both rack and wall mountable.
